MBE / WBE:	This contract will be awarded in compliance with City Code Chapter 2-9D Minority Owned and Women Owned Business Enterprise Procurement Program. No subcontracting opportunities were identified; therefore, no goals were established for this solicitation.			

Additional Backup Information

The contract is for crushed rock for various City departments. The material is typically used on erosion control projects, as pipe bedding for installation to reinforce concrete pipe infrastructure, and for minimizing ice/snow build-up on streets. The material is bulky and the City has limited storage space. The rock will be delivered directly to jobsites to ensure that rock is readily available for required repairs and maintenance.

This contract is necessary for emergency road and slope stabilization. During inclement weather road and slope stabilization may be jeopardized creating unsafe conditions.
